

El Toro is the most drought tolerant Zoysia variety and also tolerates shade well. It is easy to maintain with a rotary mower and requires less nitrogen than other grasses. El Toro's dark green color and density provide a high quality turf, perfect for residential and commercial installations.

PERFORMANCE RATINGS

CHARACTERISTICS

APPEARANCE

Medium leaf blade; dark green color in growing season, warm brown in dormancy; good fall color retention

SHADE TOLERANCE

Medium

DROUGHT TOLERANCE

Medium; higher than any other Zoysia

MAINTENANCE

Low

TECHNICAL DATA

- Excellent drought resistance
- High traffic tolerance
- Low fertility requirements
- Low mowing frequency
- Full sun to partial shade
- Cold hardy
- pH 6.0-7.0

BEST USAGE

Golf
Fairways, tees and roughs

Landscape
Home lawns, commercial properties
