

# MEYER ZOYSIA Z-52A

Meyer Zoysia has been grown successfully for more than 50 years. Native to Japan, it features a dark green color with a slightly wider blade. Meyer spreads faster than most Zoysia grasses, offering good traffic and cold tolerance.

## PERFORMANCE RATINGS

## CHARACTERISTICS

### APPEARANCE

Medium leaf blade; dark green color in growing season, warm brown in dormancy

### SHADE TOLERANCE

Medium

### DROUGHT TOLERANCE

Medium

### MAINTENANCE

Low

## TECHNICAL DATA

- High traffic tolerance
- Low fertility requirements
- Low mowing frequency
- Cold hardy
- Full sun to partial shade
- pH 6.0–7.0
- Quick injury recovery
- Low fertility requirements

## BEST USAGE

**Golf**  
Fairways, tees and roughs

**Landscape**  
Home lawns, commercial properties
